Tuesdays and Wednesdays are often the cheapest days to book Lufthansa flights. Like many other airlines, Lufthansa adjusts fares based on demand and competitor pricing early in the week. Booking your ticket 6–8 weeks in advance can result in significant savings, especially for long-haul international routes. Lufthansa also releases promotional fares seasonally—look for offers in January, March, and September. Need help finding the best fare or managing your Miles & More account? Use Lufthansa’s “Best Price Search” tool for flexible date comparisons. Combine early booking with midweek travel to maximize your savings on Lufthansa flights.
