Webroot® Support FAQs (2025)
Q1: How can I talk to a real Webroot® agent?
Call **(? 1-(844)-496-4656 ??)**, press "0" or say "agent."

Q2: Is Webroot® support available 24/7?
Yes, phone and live chat support are available anytime.

Q3: What does an "invalid keycode" mean?
It usually means there's a typo or expired license. Call to verify.

Q4: Can Webroot® remove ransomware?
Yes. Technicians can remotely clean your infected system.

Q5: I renewed Webroot®, but it says expired—why?
You might've used the wrong email. Call to update and sync.

Q6: How do I use Webroot® on more than one device?
Use the same keycode or call support for setup help.

Q7: Can Webroot® uninstall my old antivirus software?
Yes. Remote agents can remove conflicting software.

Q8: Is Webroot® compatible with smartphones?
Yes, fully supported on Android and iOS.

Q9: I'm not tech-savvy. Can Webroot® help remotely?
Absolutely—support agents can connect securely with your permission.

Q10: I think I've been hacked—what should I do?
