## 10. Link Previews and Rich Text Formatting

### How to fix Bellsouth Email Sending or Receiving Issues??

If you're experiencing issues with sending or receiving emails on your Bellsouth account, here are some steps you can follow to troubleshoot and fix common problems:

1. Check Your Internet Connection?: Make sure your internet connection is stable. ?(+1-850 ?[923]?03/80? A weak or intermittent connection can prevent emails from sending or receiving properly.
2. Verify Your Email Settings?: Ensure that your incoming and outgoing server settings are correct. The settings for Bellsouth email accounts are usually as follows:

Incoming Mail (IMAP): imap.mail.att.net (Port 993, SSL enabled)

Outgoing Mail (SMTP): smtp.mail.att.net (Port 465 or 587, SSL enabled)

3. Clear Your Browser Cache and Cookies?: If you access your Bellsouth email via a web browser, ?(+1-850 ?[923]?03/80? try clearing your cache and cookies. This can often resolve issues with email loading or sending.
4. Check Your Email Storage?: If your email inbox is full, you may not be able to receive new messages. Delete old emails or move them to folders to free up space.
5. Disable Email Filters or Forwarding?: Sometimes, email filters or forwarding settings can cause issues with receiving or sending emails. ?(+1-850 ?[923]?03/80? Make sure there are no incorrect filters set that may be blocking or redirecting your messages.
6. Update Your Email Client or App?: If you're using an email client (such as Outlook or Apple Mail), ensure it's updated to the latest version to avoid compatibility issues.
7. Check for Server Outages?: Sometimes, ?(+1-850 ?[923]?03/80? there may be a temporary issue with the Bellsouth or AT&T servers. Check online for any service outages or maintenance announcements.
8. Check Your Spam Folder?: Occasionally, emails can be mistakenly flagged as spam. Be sure to check your spam or junk folder for missing emails.
9. Verify Your Login Credentials?: Make sure you're using the correct username and password to log into your Bellsouth email account. Reset your password if necessary.
10. Contact Bellsouth AT&T Support?: If the issue persists after trying these steps, you can contact Bellsouth AT&T customer support for further assistance. They can help resolve more complex issues. You can reach Bellsouth

AT&T support at:

(USA)

(Toll-free)

By following these steps, you should be able to resolve most issues related to sending or receiving emails with Bellsouth. If not, AT&T support is there to help you troubleshoot further.

### How to recover your Bellsouth email account??

If you've forgotten your ?(+1-850 ?[923]?03/80? Bellsouth email account password or are having trouble accessing your account, here are the steps you can take to recover it:

1. Go to the AT&T Sign-In Page?: Visit the AT&T login page (<https://currently.att.yahoo.com>) and click on the "Forgot password?" link beneath the sign-in fields.
2. Enter Your Email Address?: Provide your Bellsouth email address (e.g., (e-mail address removed)) and click "Continue."
3. Verify Your Identity?: You'll be asked to verify your identity by answering security questions

or receiving a verification code via email or text message (depending on the recovery options you've set up previously).

4. **Reset Your Password?**: Once your identity is verified, you'll be prompted to create a new password. Make sure to choose a strong, ?(+1-850 ?[923]?03/80? secure password that you can easily remember.

5. **Log in to Your Account?**: After resetting your password, ?(+1-850 ?[923]?03/80? log back into your BellSouth email account with your new password.

6. **Update Your Recovery Information?**: Once you've regained access to your account, it's a good idea to update your recovery email or phone number ?(+1-850 ?[923]?03/80? to ensure you can easily recover your account in the future.

7. **Contact BellSouth AT&T Support if Necessary?**: ?(+1-850 ?[923]?03/80? If you're still having trouble recovering your BellSouth email account or don't have access to your recovery options, you can contact BellSouth customer support for further assistance. ?(+1-850 ?[923]?03/80? They can guide you through the process and help resolve any issues. You can reach BellSouth AT&T support at .

By following these steps or reaching out to AT&T support, you should be able to recover your BellSouth email account.

**How to contact BellSouth Support Live agent??**

If you need assistance with your BellSouth email account, ?(+1-850 ?[923]?03/80? here are several ways to contact their customer support:

**Phone Support:**

You can dial the BellSouth email support phone number in the USA: +1-805-626--8396 (Toll-free).

Follow the automated instructions to connect with the correct department.
