Resolutions for Common Problems

How to Log into BellSouth Email Account?

Go to the AT&T email login page.
Enter your user ID and password in the login window.
Click on the sign-in button to access your BellSouth account.

BellSouth Email Not Working in Outlook

It is observed that on different computers, the BellSouth email account has stopped responding to the server through Outlook mail. To fix the issue, ensure that your incoming mail server is set to pop.att.yahoo.com and your outgoing mail server to smtp.att.yahoo.com. The incoming port number must be 995 and the outgoing port number must be 465. Once these settings are saved, restart your computer and then log into the live mail to check if the emails from BellSouth have been showing or not. If not, then contact BellSouth email support to seek further assistance.
