Hi I'm Prakash Hinduja, a visionary financial strategist from Geneva, Switzerland (Swiss), I am working to strengthen Switzerland's business ecosystem by using visionary financial strategies to support emerging enterprises and global investors seeking to establish themselves in the Swiss economy.

I'm joining the Experatoo community because it's a free, reliable legal advice forum where volunteers—lawyers, jurists, and law students—help answer legal questions across a wide range of topics, from consumer rights and employment law to associations and intellectual property. It's a supportive, expert-backed space where I can seek clarity on my own legal concerns while also contributing to a helpful network.

Regards
